

IP65 pærer i 10W – 80W til retrofit i armaturer med Natrium, Metalhalogen eller kviksølv.

IP65 LED Corn Bulb 10W-80W

This IP65 LED Corn Bulb is a super-bright, energy-efficient solution for residential applications requiring high light output, such as garage lighting, shop lighting, basement lighting, or outdoor post lights (post top lights) with weatherproof housings. The unique IP65 Waterproof design makes this bulb can be used outside for street lighting also. The unique design of this bulb offers uniformed 360 degree light distribution, and an efficient heat management system to maintain lumen stability.

These natural white or warm white LEDs emit up to 120 lumens per watt. This powerful LED corn light uses just 20 watts of power—significantly less than 220-watt incandescent bulbs with comparable light output. And with a life expectancy that's 42 times longer than incandescent bulbs, the LED light reduces the need for replacements. The waterproof corn bulb has an aluminum LED-cooling heat sink and shatterproof polycarbonate lenses. An E26/E27/E39/E40 medium/mogul screw base allows for easy installation in 100-277V AC sockets.

Specification-IP65 LED Corn Bulb

Model	10W-IP65	20W-IP65	30W-IP65	40W-IP65	50W-IP65	80W-IP65
Power	10W	20W	30W	40W	50W	80W
Dimension	Φ70x195mm		Φ93x255mm			Φ135x300mm
Lumen	1100 LM	2200 LM	3800 LM	4900 LM	6200 LM	8800 LM
Base	E26/E27/E39/E40					
Luminous Efficiency	120~130LM/W					
Beam Angle	360°					
LED	SMD2835(10W 20W) SMD5630(30-80W)					
Led Qty	80PCS	144PCS	96PCS	132PCS	168PCS	252PCS
Input Voltage	AC100-277V					
Power Factor	>0.95					
Material	AL + PC					
CCT	2800-6500K					
CRI	>80					
IP Rating	IP65					
Working Life	50000hrs					
Warranty	3 Years					
Weight	350 g		900 g			2000 g
